PROFESSIONAL SUMMARY

Full Stack Developer and Certified Public Accountant (CPA) with a strong background in banking, auditing, and corporate financial management. Proficient in building robust backend architectures, designing responsive user interfaces, and managing data structures using JavaScript, ReactJS, Redux, Node.js, Express, PostgreSQL, and MongoDB. Expert in applying Agile methodologies (Scrum), analytical problem-solving, and attention to detail. Fully bilingual in Spanish, with professional proficiency in Portuguese and English.

TECHNICAL SKILLS

- **Languages & Core:** JavaScript, HTML5, CSS3, SQL.
- **Frontend:** ReactJS, Redux, Tailwind CSS, Responsive Design.
- **Backend & Databases:** Node.js, Express, Sequelize, PostgreSQL, MongoDB, Firebase.
- **Tools & Methodologies:** Git, GitHub, Postman, Cloudinary, Agile (Scrum).

DEVELOPMENT EXPERIENCE

Freelance Full-Stack Developer | Self-Employed – Remote

Jan. 2026 – Present

- Developing a comprehensive Full-Stack web application for client management, automated online session scheduling, and service tracking.
- Architected and implemented a secure administrative dashboard featuring dynamic CRUD capabilities to manage services, publish blog content, and update real-time announcements.
- Designed a fully responsive frontend interface focused on streamlined user experience (UX) and conversion-oriented layouts to increase customer engagement.
- Engineered a robust component structure using React and Express, establishing a clean code environment prepared for upcoming secure client portals and data visualization features.
- Roadmapped future phases including secure payment gateway integration, premium e-book sales, and performance tracking via Google Analytics 4 (GA4) and Search Engine Optimization (SEO) tools.

Deploy: mariamartagalli.com.ar | Code Repository: github.com/JuanPGalli/mmastrologia

Frontend Developer Trainee | MindDev Perú – Remote (Lima, Peru)

Jul. 2025 – Dec. 2025

- Developed and implemented modern, responsive web interfaces using React, Tailwind CSS, HTML, CSS, and JavaScript.
- Collaborated closely with the UX/UI design team to transform design prototypes into high-performance, semantic functional components.
- Supported API integration and asynchronous data handling on the frontend layout layer.
- Contributed to continuous codebase improvements through active participation in code reviews, technical documentation, and sprint meetings.
- Achievements: Delivered scalable UI components aligned with strict design system guidelines; improved overall web performance and accessibility markers.
- Technology Stack: React.js, Tailwind CSS, HTML, CSS, JavaScript, Git, Agile Methodologies, Code Review.

PROJECTS | Portfolio: jpgdev.vercel.app

Full Stack Developer – ShopFlow E-Commerce (Evolved from HelpCommunity)

Oct. 2023 – Present (Iterative Refactoring & Rebranding)

- Architected and engineered a full-featured e-commerce platform, recently refactored from a legacy codebase to optimize performance and streamline retail workflows.
- Modeled a robust relational database structure, designing secure product CRUD operations, advanced combined filtering algorithms, and strict multi-criteria sorting flows.
- Integrated third-party services including Firebase for streamlined user authentication, Cloudinary for cloud asset storage, and Mercado Pago as the primary secure payment gateway.
- Engineered backend notification logic using NodeMailer to handle automated purchase confirmations and administrative messaging.
- Built a centralized administrative dashboard tracking core business metrics, user access controls (account blocking/unblocking), sales history logs, and real-time inventory management.
- Tech Stack: ReactJS, Redux, Node.js, Express, PostgreSQL, Sequelize, Firebase, Mercado Pago, Cloudinary.

Deploy: shopflow-ecommerce-demo.vercel.app

Full Stack Developer – F1 Drivers SPA (Academic Project)

Sept. 2023 – Sept. 2023

- Developed an individual Single Page Application (SPA) to browse, filter, search, and catalog Formula 1 drivers.
- Built custom, pure CSS components from scratch to manage multi-criteria sorting, combined filtering, and controlled creation forms without external UI libraries.
- Resolved complex backend data integration challenges, managing a many-to-many relationship between drivers and teams using Sequelize.
- Tech Stack: ReactJS, Redux, Node.js, Express, PostgreSQL, Sequelize, Pure CSS.

Deploy: f1-drivers-spa.vercel.app | Video Demo: youtu.be/5EJk7emG87s

FINANCE & AUDITING EXPERIENCE

Back Office Responsible | AFG S.A. (Argentina)

May 2016 – Apr. 2019

- Managed money-desk operations, cash treasury counts, supplier payments, bank accounts reconciliations, and daily customer service paths.
- Executed money exchange entries and financial discount records on deferred checks, ensuring precise accounting entries for all corporate expenses.
- Achievements: Streamlined back-office processing workflows, reduced supplier ledger discrepancies, and optimized treasury response cycles.
- Tech Stack: Microsoft Office (Excel/Word), Internal Tailor-Made Core System.

Planning and Management Control Analyst | BANCO FINANSUR (Argentina)

Jul. 2012 – May 2016

- Authored the official institutional Business Plan, developing 3-fiscal-year financial projections and quantitative variance analysis (budgeted vs. actual performance).
- Generated monthly C-suite Management Reports, tracking individual branch efficiencies, loan distributions, and commercial deposit indicators.
- Tech Stack: Microsoft Excel, Word, Tailor-Made Corporate Budget Software.

Accounting Analyst | BANCO FINANSUR (Argentina)

Jan. 2009 – Jun. 2012

- Prepared statutory Cash Flow Statements and corporate financial disclosures under national banking authority guidelines.
- Managed local regulatory audits, executed complex bank ledger reconciliations, and audited financial debtors alongside their corresponding credit allowances.
- Tech Stack: Microsoft Excel, Bantotal Core Banking Platform.

Semi-Senior Auditor | RSM Argentina (Argentina)

Dec. 2007 – Jan. 2009

- Led comprehensive financial statement audits, reviewed accounting reports issued under US GAAP, and drafted formal management representation letters.
- Supervised and mentored junior staff accountants while managing audit processes for major enterprise accounts (e.g., Otis Argentina, Kia, Dycasa).

Semi-Senior Accountant and Tax Analyst | Schenker Logistics (Argentina)

Jan. 2006 – Dec. 2007

- Administered end-to-end accounts payable (AP) processes, fixed asset databases, monthly results analysis, and international foreign currency transfers.
- Calculated and filed municipal, provincial, and national tax affidavits, managing strict compliance with corporate withholding codes.

Senior Auditor | PwC (Argentina)

Jan. 2003 – Jan. 2006

- Spearheaded institutional audits for leading entities in the banking industry (e.g., Banco Supervielle, Banco Galicia), specializing in credit risk analysis and internal controls.
- Evaluated internal accounting frameworks, identified operational vulnerabilities, and drafted actionable internal control letters for C-level leadership.

EDUCATION & LANGUAGES

- B.S. in Software Engineering | Estácio University (Brazil) – In Progress
- Certified Public Accountant (CPA) | Universidad de Buenos Aires (Argentina)
- Full Stack Web Development Diploma | Soy Henry Bootcamp (800+ hours)
- Languages: Spanish (Native), Portuguese (Professional / B2), English (Professional / B2).
